

VetFlex ICU Pro Hybrid

Dual-Level Versatility, Single-Unit Efficiency

KEY ADVANTAGES

- ✓ Dual Patient Capacity**
Treat two patients simultaneously with fully independent environmental controls per chamber.
- ✓ Space-Efficient Stacking**
Vertical stacked design doubles your ICU capacity without doubling your floor space footprint.
- ✓ Zero Recurring Costs**
AERAFLOW™ technology eliminates all soda lime expenses across both chambers. Savings multiply with usage.
- ✓ Independent Controls**
Each chamber operates autonomously with its own temperature, O₂, and lighting settings.

The VetFlex ICU Pro Hybrid combines the flexibility of a stacked dual-chamber design with the simplicity of single-unit operation. Treat two patients simultaneously with independent environmental controls. Ideal for growing practices that need to maximize floor space.

TECHNICAL SPECIFICATIONS

Construction	Medical Grade 304 Stainless Steel
CO ₂ Management	AERAFLOW™ Ventilation (Soda Lime-Free)
Sterilization	Advanced Ion Sterilization
Temperature Range	60°F – 99°F (±1°F precision per chamber)
CO ₂ Monitoring	Real-time digital sensors (per chamber)
Display	10" LCD Touchscreen (per chamber)
Power	110V / 10A (no dedicated circuit)
Backup Battery	30-minute integrated UPS
Noise Level	< 40 dB
Lighting	3-in-1 per chamber: White / Blue / Warm
Mobility	Heavy-duty locking caster wheels
Warranty	Industry Leading 2 Year Warranty
Oxygen System Compatibility	Central Oxygen, Oxygen Concentrator, Oxygen Tanks

DIMENSIONS

Stacked Hybrid

External		Internal (per chamber)	
Depth	35.0"	Depth	24.4"
Width	49.2"	Width	42.0"
Height	74.4"	Height	23.9" per chamber

STANDARD FEATURES

- ✓ AERAFLOW™ Soda Lime-Free Ventilation
- ✓ Advanced Ion Sterilization (per chamber)
- ✓ Smart Autopilot O₂/CO₂ Control (per chamber)
- ✓ 10" LCD Touchscreen (per chamber)
- ✓ 3-in-1 Therapeutic Lighting (per chamber)
- ✓ 30-Minute Backup Battery
- ✓ Removable Chamber Dividers
- ✓ Heavy-Duty Locking Casters
- ✓ Advanced Air Filtration
- ✓ Independent Environmental Controls

IDEAL ENVIRONMENTS

- Multi-patient critical care management
- Simultaneous post-surgical recovery monitoring
- Neonatal litters requiring individual attention
- Emergency clinics with high patient turnover
- Practices with limited floor space
- Infectious disease isolation (separate chambers)

AERAFLOW™ Soda Lime-Free Technology

Traditional ICU systems require soda lime. This adds cost, maintenance, and handling.

AERAFLOW™ continuously removes CO₂ and delivers fresh, oxygen-enriched air. No consumables. No chemical handling. Eliminates soda lime handling entirely.

1

Fresh Air Intake

Controlled ambient air drawn in

2

O₂ Enrichment

Precise 21-80% concentration blending

3

CO₂ Extraction

Continuous exhaust, no chemicals

FLEXIBLE OXYGEN INTEGRATION

Central Oxygen Systems

Primary integration

Oxygen Concentrator

Primary or backup supply

Oxygen Tanks

Portable supply

Supports redundant oxygen supply strategies for critical care environments.

WHAT'S INCLUDED

- ✓ VetFlex ICU Pro Hybrid Stacked Unit
- ✓ 2x removable chamber dividers
- ✓ Power cord and backup battery
- ✓ Digital user manual
- ✓ 2-year warranty card
- ✓ Video training access

COMPLIANCE & SAFETY

- ✓ Veterinary-grade materials
- ✓ Non-toxic ion sterilization (chemical-free)
